THE FINANCIAL portion of the marked was little prolific in incidents for the reporter to mention, as has been common of late. There is some inquiry about Nicolson pavement city, and surprise is expressed that so low a figure as has prevailed the last few day, should be accepted for it. The Memphis market has started up an umbrella, to be safe from the shower, since the time the Herald refers to. The Little Rock Gazette, February (th, has the following: "State scrip has declined a little during the past week, but is steady at present, the demand being moderate—few selling unless compelled to realize the currency, and round amounts hard to find currency, and round amounts hard to find under quotations. Many would nave been on the landing but for the mud, which is, however, rapidly drying under the influence of old Sol and the gentle breeze that continues to blow from the northwest, and nuless falling weather visits us in the next two or three days, anybody can travel there without wetting the soles of a pair of slippers. The river here fell six inches and now stand twenty-five feet six inches above low-water mark. The Cumberland has again commenced rising, six inches being the swell since last report. At Leavenworth a rise of one inch is noted, while all the upper streams continue to decline. Business amounted to but Httle, as is usually the case on Sunday.

A number of rooms have alrendy bees engaged for the round trip, while Professor Carrier's full band of twenty musicians will discourse music for the guests," He should have added that Bob Wise's squaresterned-kick-up-behind Parker would behere, and that Bob, Billy Meintyre and the other boys would blow their own horns."
